

ERN Support and Training programme- WP17- EJP RD

Report Workshop “GATA2-related Myelodysplastic Syndromes”

Date/Venue/Format

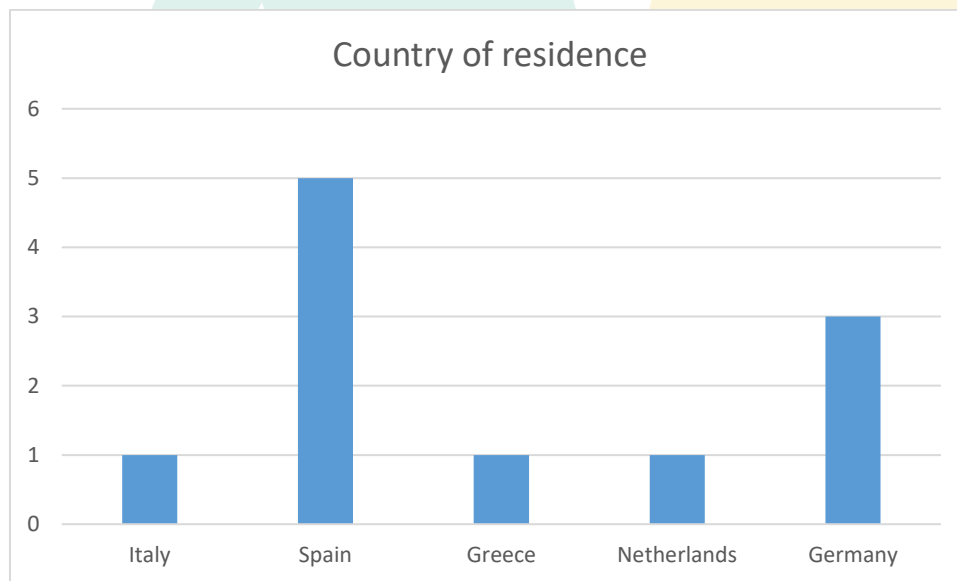

September 30th and October 1st 2021, hybrid - online and in Athens, Greece)

Numbers (participants, speakers, ERNs represented, patient representatives):

2 ERNS represented: ERN EuroBloodNet: 3, ERN PaedCan: 4

Analysis of the workshop satisfaction survey

11 participants have responded to the survey.

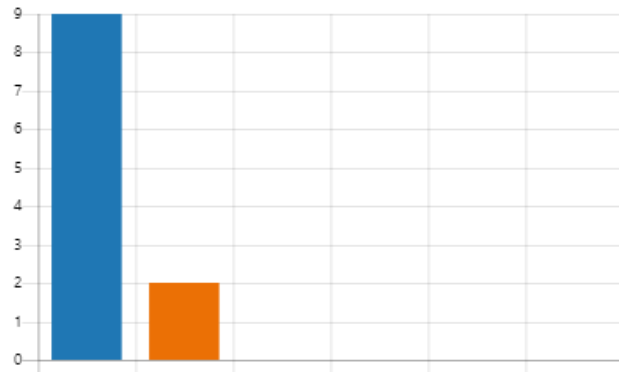

5. Overall, how would you rate the quality of this workshop?

[Weitere Details](#)

[Insights](#)

● Excellent	9
● Very good	2
● Good	0
● Satisfactory	0
● Poor	0
● Unacceptable	0

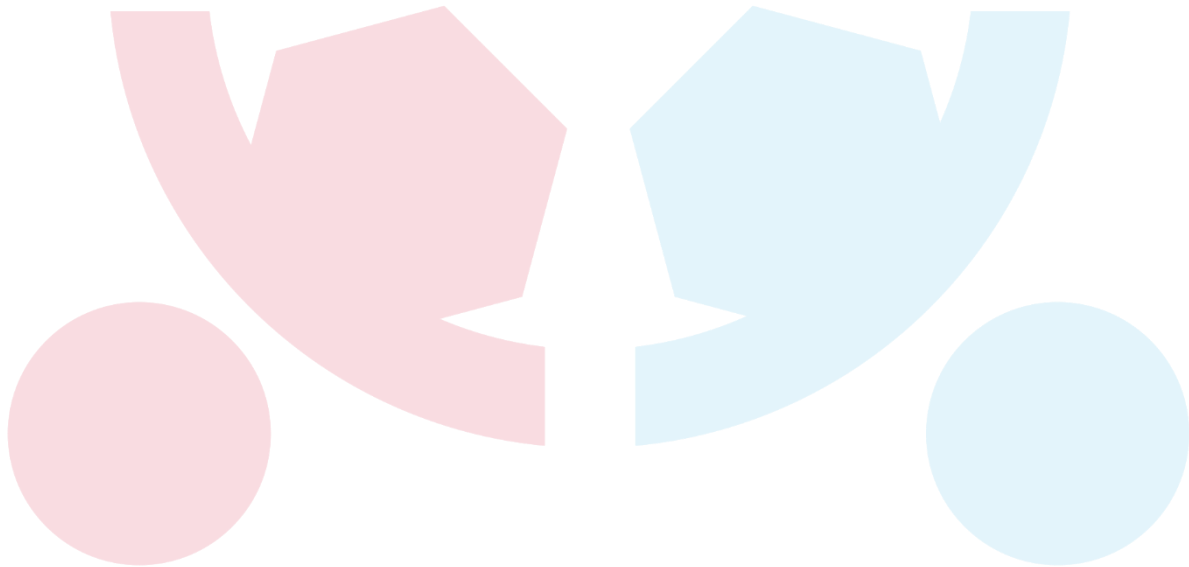

6. Please rate the usefulness of this workshop contents for your future research/professional activity?

[Weitere Details](#)

[Insights](#)

● Highly useful	9
● Useful	2
● Not at all useful	0

7. Were the training contents appropriate for your level of knowledge/expertise?

[Weitere Details](#)

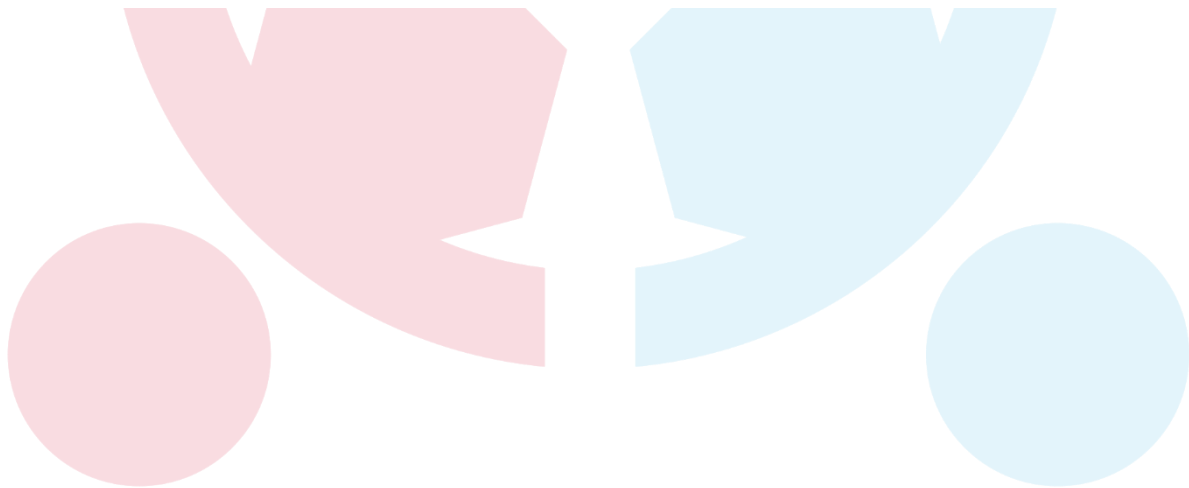

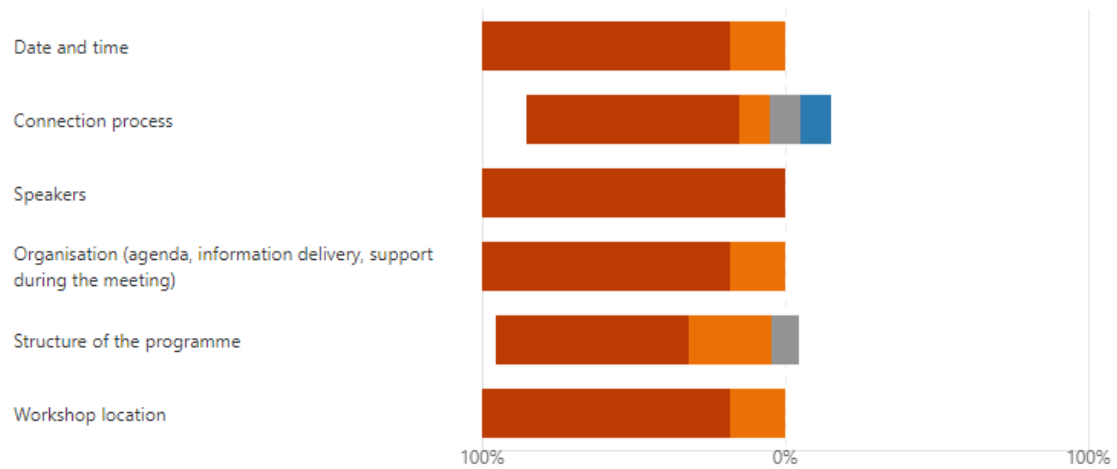

● Too easy/basic	0
● Just right	11
● Too difficult/complex	0

8. Please rate your satisfaction level for the following aspects of the workshop

[Weitere Details](#)

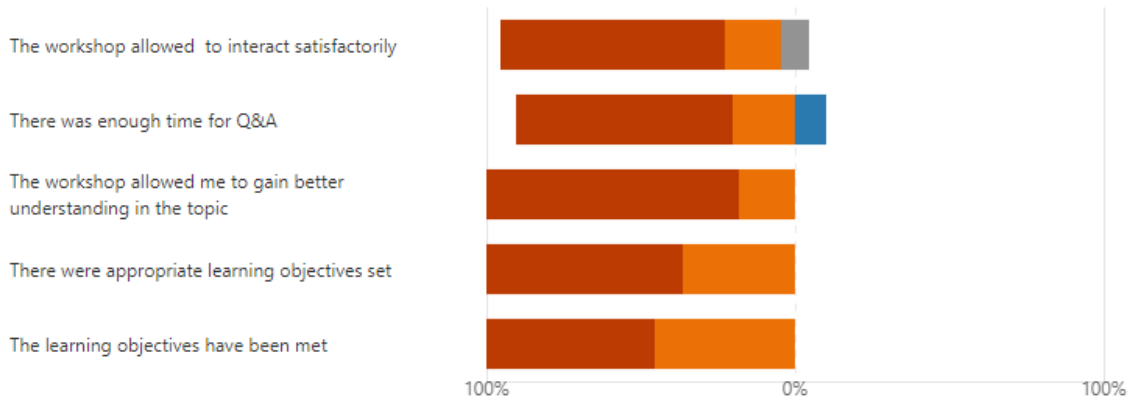

■ Very satisfied
 ■ Satisfied
 ■ Neither satisfied nor dissatisfied
 ■ Dissatisfied
 ■ Very dissatisfied

9. How much do you agree with the following?

[Weitere Details](#)

■ Strongly agree
 ■ Agree
 ■ Neither agree nor disagree
 ■ Disagree
 ■ Strongly disagree

10. Do you anticipate to use the contents learned during the workshop regularly, i.e. at least monthly in your working routine?

[Weitere Details](#)

[Insights](#)

● Yes 8
● No 0
● Maybe 3

11. What did you like about the workshop?

Advances
To combine clinical and basic research topics
Learned novel information about complex diseases
Interaction basic scientists and clinicians
The diversity in topic background, from clinical to basic biology
The MDS-AML field is completely new for me, I gained useful knowledge and understand how the GATA2 community is organised
the interdisciplinary of the topics
hybrid concept
The talks

12. What did you dislike about the workshop?
Update level of speakers
Nothing
some sessions were spread in time
nothing
I had several connection issues with the virtual platform
NA
Too many talks the same day
times - it would be good for other people from other time zones to join
nothing, everything was perfect

13. Could you please comment on ways the workshops (and related procedures) could be improved?
NA
Present research proposals and allow participants to interact and collaborate
cannot think any way to improve it.
nothing
I hope that next year everybody could attend in person but if the next edition will be hybrid again, they need to solve the IT issues in advance. There was connected the audio of the room in the majority of the talks instead of the speaker audio
More time for the speakers in the talk
I would make the talks during the morning (p.ex. till 3pm, then leaving the afternoon for meetings, or more interactive time) Because after all day listening conferences, at 5pm the brain is dead.
Please allow non EU countries to participate. This cannot be an exclusive club only. There are many students in non-EU countries who would benefit from it highly.

14. How important are CME points for this kind of training events?

[Weitere Details](#)

- Extremely important (I would r... 1
- Neutral (CME points are impo... 4
- Irrelevant (for me receiving C... 6

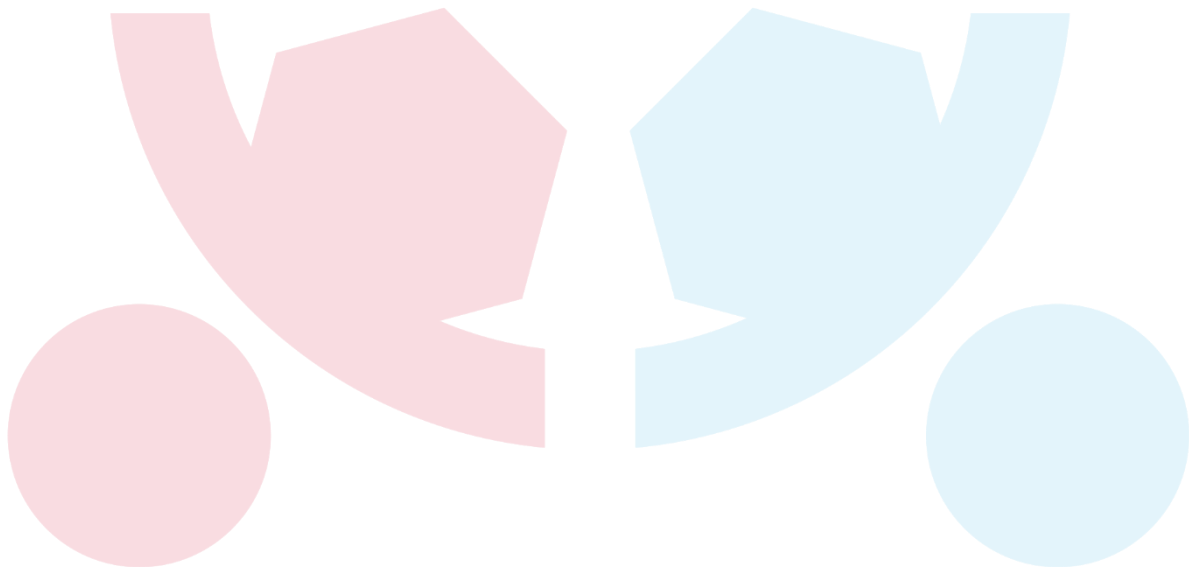

15. If you would be attending a similar workshop in future, should it be ... ?

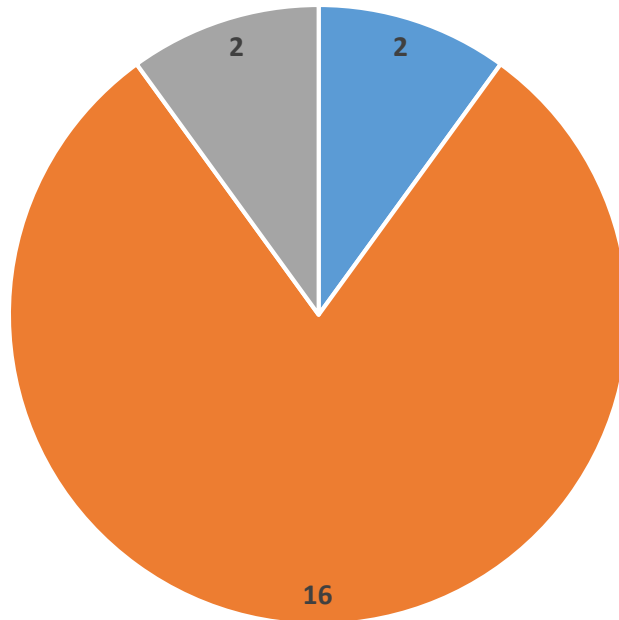

[Weitere Details](#)

[Insights](#)

- Face-to-face 8
- Online 0
- Hybrid 2
- No preference 1

13. How important are CME points for you for this kind of training events?

- Extremely important
(I would register only if the)
- Neutral
(CME points are important, but I would register for a training event based on the programme/content)
- Irrelevant
(for me receiving CME points for such training events is not important at all)
