

## **ERN Support and Training programme- WP17- EJP RD**

### **Report Workshop “Psychological, molecular and administration aspects of HBOC GPS”**

#### **Date/Venue/Format**

27-28 April 2023

Riga Stradins University Anatomy Museum - 9 Kronvalda Boulevard, Riga, Latvia

Face-to-face Workshop

#### **Numbers (participants, speakers, ERNs represented, patient representatives)**

- 30 participants
- 7 speakers
- 8 ERN's represented
- 1 patient representative

#### **Analysis of the workshop satisfaction survey**

Total of 9 responses received from participants involved in ERN CRANIO, ERN-RND, ERN EYE, ERN Genturis, ERN Guard-Heart, ERN Ithaca. Overall evaluation is very good. The most participants agreed that it was highly useful for future research/professional activity. All participants agree that it was just right level of their knowledge/expertise. The most participants were very satisfied with the date and time, connection process, speakers, organization, structure of the program and workshop location. 8 participants will use the contents learned during the workshop regularly.

#### **2-3 participants' testimonials**

"The goal was well adjusted to the needs of hosting institution, which are launching pilot on the topic right now"

"the workshop format worked well"

"The possibility to meet the experts face-by-face and to ask any kind of questions to them."

#### **Conclusions, lessons learned, best practice to keep in mind.**

Abroad participants should need approval more in advance, since the last-minute tickets are very expensive. And more such workshops should be organized! CME points would be important for some of the participants.
